WEDDING BELLS

WILSON—McKIE

The home of Mr. and Mrs. T. N. McKie was the scene of a pretty event on Sunday, February 17, at 2 o'clock, when Georgia Eveline, their youngest daughter, became the bride of Thomas John Wilson. The ceremony was performed by Rev. J. N. Brunton in the presence of immediate relatives. The happy couple will make their future home in Medicine Hat. The Advocate joins with their host of friends in wishing them every success.

CHURCH OF CHRIST NOTES

The regular services at Church of Christ Lord's Day, February 24th. This is the last time you will get to go to church in February, and you had better go once a month at least. It will not spoil your religion. Try it out. The pulpit will be supplied in the morning at 10:30 unless the roads prevent the minister from going to the Broadway school house for the morning hour.

At 11:30 the Bible school will again hold the place of importance. The contest race is getting close and interesting. Come and bring a friend. At 7:15 the Christian Endeavor. This is one of the greatest meetings held on the Lord's Day. It is an inspiration to hear the young folks speak the things that count for the higher life.

At 8:00 the minister will answer another lot of questions that have been coming in for the last month. Some of these questions deal with the vital things of life and we ask your attention to them. Good singing is always the order. Special music. I am just wondering if Vulcan is satisfied with its religious standing? It seems there is something that can be done to help the matter. Jesus said: "As in those days which were before the flood, they were eating and drinking, marrying and giving in marriage, until the day Noah entered into the ark. And they knew not till the flood came and took them all away." Let's be careful this is not the condition we find ourselves in today. Want to know the cure? Come to the Church of Christ. We deal in New Testament Christianity. Watch the announcements.

UNITED CHURCH NEWS

Taking his text from Deut. 33:27 "The Eternal God is thy refuge and Protections and underneath are the Everlasting arms." The Rev. Mr. Brunton declared that familiarity shall not rob us of life's suggestion of the sublime. For childhood and youth there is home. Home is a commonplace word. What does the word imply? He stated that it implies in the best sense, love and care, shelter, provision and understanding. Perhaps the most sensitive soul can appreciate best what these mean.

One like John Howard Payne, after wandering for years in foreign lands, and writing "Home, Sweet Home," may realize its value.

Yet to many home is simply a place of retreat from the noise and stress of business life. "Man goeth to his labor until the Evening" and with the fading light, he comes back tired with toil and harassed with care, and yet happy to find the glow and the love light of the family circle. He shuts the door on the warring factions with out. "The world forgetting and the world forgot." Yet happy as that retreat may be it is not wholly free from the changes of time. Is there anything more tragic than the break-

MEETING OF NEW COUNCIL

The first meeting of Vulcan's new council took place on Monday evening with Mayor Butchart in the chair.

It was decided that in future, regular meetings of the council shall take place on the first Monday in the month at 8 p.m.

A committee was appointed to meet representatives at the various fraternal and other societies in town with reference to the equipment of the gymnasium at the new Memorial Hall.

BOXING TOURNAMENT

Success attended the official opening of the Vulcan gymnasium in the Canadian Legion Memorial hall there on Thursday night when an interesting fight card was pulled off. The scrappers in the main go were Frankie Jackson and Jimmy Campbell of Edmonton. Jackson had his hands full but managed to keep the fight very even. The Edmontonian weighed 145, while Jackson tipped the scales at only 136. A draw decision was given for the ten rounds.

In the semi-windup Ronnit Daines of Winnipeg fought Ed. Edwards of Calgary to a six round draw. This is the second meeting of these two men having fought the first time in Calgary on New Year's day when Edwards won the decision. Three snappy preliminaries gave the packed auditorium a good evening's enjoyment.

Young Jackson is booked to fight Louis Kwiczak at Drumheller next Monday. The Vulcan boy already holds one victory over the northern man having defeated him at Wray some time ago.

VULCAN TRIMS STAVELY

In the game between these two teams on Monday evening, at the Vulcan arena, brilliant checking by the Vulcan boys enabled them to win a hard-fought victory by seven to five. Bobbie Marshall and Harry Ferguson made a dashing rush together, passing back and forth and breaking through the Stavely defence, thus scoring at the end of the second period.

Both teams played fine hockey and both some fast checking. Cecil Wray made a brilliant lone dash to score; and each team received one penalty.

In the last half of the third period, Stavely being one point up on the Vulcan team, J. Miller and Carl Neilson made a rush, Miller scoring on a pass from Neilson, making a tie, 5-5, at the end of this period.

Ten minutes overtime was played during which the Vulcan Vets scored two more goals, and wonderful hockey was demonstrated by both teams in the last five minutes of play.

The line-up was as follows:

Vulcan—Goal, Eddie Love; defence, L. Leverington and Cecil Wray; forwards, Bobbie Marshall, J. Miller, Harry Ferguson, Carl Neilson and M. McDonald.

Stavely—Goal, A. Allen; defence, Derochie and Damour; forwards, Graham, Bouzayn, Schade, Roy Anderson, B. Haynes.

POPULAR PRESENTATION

A power farming school was held on Tuesday, February 19th by the International Harvester Co. of Canada Ltd., at the warehouse of J. T. Wilford, agent at Vulcan. Considerable interest was shown by one hundred farmers in attendance. The McCormick-Deering tractor was dismantled by experts of the company, and talks on each unit were given by employees of the company. R. W. Greenway, manager of Lethbridge branch being in attendance.

Special attention was given to the new improvement packages being supplied at greatly reduced prices whereby owners may change the oldest McCormick-Deering tractor to the latest type with a small amount of labor and exceptionally low costs.

Films were shown covering the manufacture of twine, cream separators, tractors, etc., also field scenes of tractors, harvester thrashers, swathers and pick-up in operation. All of which scenes were taken in Western Canada.

A new film known as "Doomsday Builders" which was filmed this year in Western Saskatchewan, was shown illustrating the many advantages of power farming over the old methods and proving conclusively that saving in costs has established the new system on a firm basis.

The enterprise of Mr. John T. Wilford is responsible for arranging this tractor school and thanks are due to him for the information given by the factory representatives present as well as for the presentation of the instructive motion pictures.

MUNICIPALITY OF MARQUIS

Following are the minutes of the annual meeting of the Municipality of Marquis, No. 157 held at Lake McGregor on Saturday, February 16th, 1929.

At 1 p.m. the Returning Officer, P. J. Haslam opened the meeting calling for nomination for a chairman from the 50 or 60 ratepayers present.

Proposed and seconded that Mr. C. Oldfield act as chairman. Carried.

Mr. Oldfield thereupon took the chair and called for nominations for a secretary.

Proposed and seconded that P. J. Haslam act as secretary to the meeting. Carried.

Mr. Oldfield then called upon the Councillors in turn to address the meeting.

Mr. Neil Campbell, Reeve, the first on the stand, took the financial statement explaining in detail the various items.

Mr. Milt Ward was the next Councillor called upon, he took on road grading pointing out the saving that could be effected by the use of an elevator grader, also on the results obtained by the use of chemical weed destroyers.

Mr. James Dann was then called on for his report, in the course of which he stressed the amount of work he found it necessary to do last spring owing to washouts, also that he acquiesced with Mr. Ward in his remarks regarding road machinery and weeds.

Mr. Richard Broderick then took the stand, touching on the chemical destruction of weeds advised caution until effective results of the chemicals are proved. He also said that he quite agreed with the remarks of his colleagues, Messrs. Ward and Dann on the saving that would result from the purchase of an elevator grader. The rest of his remarks were confined to the Municipal Park and the proposed larger health unit—as explained by the Dept. of Public Health at the municipal convention.

As the set time for nominations was drawing near and two councillors yet to hear from, it was proposed by D. O. Sims seconded by W. Oldfield that the time for the councillors' remarks be extended. Carried.

Mr. Vic Bertrand was thereupon called upon. In the course of his remarks he emphasized the advisability of trying to keep open the roads all the year round. He also dealt with road maintaining, saying that on main roads this should be a paid service even if the mill rate has to be increased.

Mr. Steve Williams gave a report on the expenditure in his division giving figures from actual work done during the year of the amount saved by the use of an elevator grader compared with other methods of handling dirt.

Mr. Wilson Oldfield the representative of the Municipality on the Hospital Board of the Municipal Hospital Vulcan, gave a report on the Municipal Hospital. In response to a delegation from the Milo Board of Trade regarding a sub-hospital at Milo, he said he was sure his Board would be glad to meet the Milo Board of Trade anytime and talk the matter over.

The Returning Officer then resumed charge of the meeting and called for nominations for three councillors for a two year term. At 1 p.m. nominations closed.

The following gentlemen were nominated: Richard Broderick of Eastway; Steve Williams of Queenstown; Neil Campbell of Vulcan.

Thereupon the Returning Officer declared the aforesaid gentlemen elected by acclamation for a two year term in the order named.

Mr. C. L. Oldfield then took over the chair and the business was proceeded with, the new councillors being called upon for an expression of their policy.

Mr. Higgins, representing a delegation from the Milo Board of Trade regarding the improvement of the road from Armada to Milo.

Mr. Alec McIntyre seconded by Mr. Wm. Herman, proposed the following resolution:

"That this meeting here assembled request the Municipal Council of Marquis to find ways and means of raising at least \$2000 to be spent on the improvement of the Park in the next three years."

With the consent of the mover and seconder, this resolution was withdrawn, and the following resolution substituted: Moved by Alec McIntyre seconded by John Glimmer "That action on this matter be postponed until the government park planning expert will be a hand, and it is further resolved that a general meeting of the ratepayers be called for the date Mr. Seymour, the park expert can attend on." Carried.

Moved and seconded that the Municipal secretary notify all ratepayers of this meeting.

Moved by D. B. Sims, seconded by L. A. Douglass the following amendment: "That this meeting be advertised." Continued on back page

VULCAN RINKS AT CHAMPION

The annual bonspiel of the Little Bow commenced Monday at Champion and a large number of rinks from the adjoining territory were in attendance, including rinks skipped by T. Lellow, and A. G. Dickenson of Vulcan.

The bonspiel continued for two days only but interest was keen and many close contests resulted.

The Little Bow Curling Association is composed of Blackie, Brant, Vulcan, Champion, Carmanagay, and Barons, the two winning rinks of each club being eligible to compete.

MUNICIPALITY OF ROYAL

The meeting of the electors of the Municipal District of Royal, for the purpose of receiving the accounts for the year ending December 31st, 1928, and the nomination of councillors, took place in the L.O.O.F. hall on Saturday, February 16th, with Mr. Laban Eamon as returning officer.

The financial statement was read and adopted, and a general discussion of matters of importance to the electors took place.

Nomination of councillors resulted as follows:

Division 1: John Braunswo. N.A.

Jensen.

Division 5: Alex. Smith, elected by acclamation.

Division 3: R. S. Irwin, Andrew Larson

and the election will take place on Saturday, February 23rd from 9 a.m. to 5 p.m. at the following places:

Division 3: at Twin Coulee and Richmond Hill school houses.

Division 4: at Thomas Johns' residence, Brant.

The attendance at the meeting was very small owing to the unfavorable weather.

WALLIS TRACTOR SCHOOL

Despite the recent winter weather signs of spring are at hand, among these being the activity of farm machinery and automobile manufacturers in bringing their specialties to the notice of agriculturists and others. Several demonstrations have been conducted recently in Vulcan by factory representatives and not the least in point of interest was the showing of the Massey-Harris Wallis Tractor which took place at Vulcan theatre last Friday.

Messrs. S. Sloan and P. R. Watkins of the Massey-Harris Co. went into full details as to parts and workmanship, and explained thoroughly how to operate a tractor, and the attention required to keep it in running order.

Mr. F. N. Smith, of the Texas Oil Company of Canada, gave an interesting talk on oils, emphasizing the importance of proper and sufficient lubrication and indicating the right grades to use which can be obtained from his Company's local agent, Mr. Angus Sinclair.

This was followed by motion pictures illustrating the Wallis Racine plant as well as the Wallis tractor in operation on the fields of the Province of Alberta.

Much interest was displayed in the school, over fifty representative farmers being in attendance, and credit must be given to Mr. Sinclair, the local agent, for arranging and carrying out this useful and entertaining demonstration.

LEGION "AT HOME"

Since its opening, the new Memorial Hall has been the scene of various activities; last week the successful "smoker" took place and later in the week, the equally successful boxing tournament.

Tuesday of this week the new building was open for inspection by the public, and many availed themselves of the opportunity to look it over, and all expressed themselves as delighted with the well-appointed club rooms. On the same evening an "at home" was held, and many ladies and gentlemen accepted the invitation of the Legion to enjoy cards and dancing which were kept up with enthusiasm until a late hour.

The Vulcan branch of the Canadian Legion and the entertainment committee are to be congratulated on the success attending their undertaking.

Ensign readers will join the Advocate in regretting the illness of Mrs. Southgate, our valued correspondent at that point, and in wishing her a speedy recovery; they will also regret the absence of the bright news items which appear so regularly in this paper.

The regular meeting of the Protestant Women's Federation will be held in the United Church hall on Tuesday next at 3 o'clock. Study of the Religions in Canada will be continued, and the report of the annual meeting of the General Council in Toronto read. This will be an interesting meeting and members are asked to be on hand promptly.

FRIENDLY CO-OPERATION with FARMERS

There is a spirit of service and co-operation about the Bank of Montreal which appeals strongly to our farmer-customers.

You are cordially invited to call at this Bank and discuss your financial problems with the manager

BANK OF MONTREAL

Established 1817

Total Assets in excess of \$870,000,000

BE COURTEOUS

It is amazing and likewise annoying the manner in which motorists will take advantage of courtesies extended on the part of farmers and stockmen in permitting them to detour through their gates and escape heavy snow drifts on the road. With the majority this courtesy is appreciated and they take pains to carefully close such gates, unfortunately there are some men without appreciation, who leave the gates open with the result that range cattle are privileged to roam away from their feeding lots all of which causes loss of time and annoyance on the part of the stockman. Furthermore there are others who have cut wire fences here and there to permit a detour and it is such inconsiderate actions that compel stockmen to strictly prohibit trespassing on their property and who can blame them. Complaints have been made on the part of stockmen to the west of town who deplore the promiscuous cutting of wire fences and leaving gates open and they ask for some consideration on the part of those who have occasion to make a detour. Surely this is not too much to ask. A true gentleman will never leave a gate open and if he cuts a wire fence his first act is to repair that fence after he has made use of it.

CANADA'S ROSY FUTURE

Roger Babson foresees a wonderful future for Canada. He says this country has ninety per cent. of the water power of the continent and owing to this will attract the industrial centre of the continent to a point 200 miles north of where it now is. Canada, he declares, will eventually control the wheat market of the world, and Ontario will supply 60 or 70 per cent. of the non-ferrous metals of the continent. He predicts a population for Toronto of 2,500,000 in twenty-five years. Roger Babson is the kind of prophet we like to listen to. One could sit and listen to him for hours.—Toronto Daily Star.

The Vulcan Advocate

An Independent Weekly Newspaper issued every Friday afternoon, at the office of publication, Vulcan, Alberta. Subscription price per year, in Canada \$2.00, United States and other countries \$2.50. Advertising rates furnished on request.

VULCAN ADVOCATE
VULCAN, ALBERTA

THE GAWKY AGE

An article on the gawky age in a current magazine points out that one reason why the treatment of adolescents is difficult is because many boys and girls remain children in spirit until almost adult development is attained and conversely many are mentally ahead of their physical development. A few simple rules are given for the physical care of the adolescent.

1. In the matter of eating a good rule is food, food and more food with eggs once a day, meat twice and at least a pint of milk. The average girl has as much reason to restrict diet, as the average giraffe, and such a habit is very dangerous. Sweets are not harmful provided other proper foods balance the sugar. The adolescent has a great susceptibility to tuberculosis, hence the danger of any semi starvation practice.

2. Rest and sleep are imperative. One great benefit of a boarding school regime is that regular hours are insisted upon, more than in homes. The tall child needs more than the short one; the thin child more than the fat one, the quick child more than the slow one. From ten years to fourteen, eleven hours is ideal for sleep. From fourteen to eighteen, at least nine hours. And until maturity eight hours is not enough.

3. Exercise—A good guide for exercise is inclination. Normally young people desire activity. Competitive games should not be forced on anyone. A disinclination may mean too active growth or it may be real physical insufficiency. No child who has had prolonged illnesses in rheumatism, diphtheria or scarlet fever should engage in strenuous games until his heart has been examined. Baseball is the least strenuous of competitive games.

4. The only heavy rule about adolescent smoking, is that it becomes seriously injurious when it affects the appetite. Appetite is the God-given attribute that ensures all round growth.

5. Posture—Too often orders for posture are given without reasons. But an explanation of why he should stand straight and hold his head up might be effective. A straight back bears weight more easily. A chest held high makes us expand the lungs at the bases. A flat hard abdomen is muscular and holds its organs in place and resists injury. Springy, parallel feet strengthen the feet and brings the weight where it should be—on the great toe, the ball and the inner border of the heel.

MOTTOS FOR MOTORISTS

Pedestrians should be seen and not hurt.—Life.

Say it with brakes and save the flowers.—Judge.

Time saved at a crossing may be lost in the emergency ward.

There are too many hip and rum drivers.

NEWS—HAND IT IN

If even a few friends of The Advocate will only remember us from week to week in a little way it will help amazingly to make this paper much newswier and therefore that much better from the real test of a paper, the subscriber's standpoint.

As you know, the local weekly paper is made up of little items and it is almost impossible sometimes to run down the news. Therefore your cooperation is most cordially asked to help along the making of your paper from week to week.

If you have an item drop in and tell us about it, send us a little story about it, phone us, anyway, so it gets to this office and the business will be promptly attend to.

If you have someone visiting you, or if you know of a friend who has, send it in. If there is a social in your neighborhood don't forget us with an account of it. North, East, West, South spells NEWS and we want your cooperation from all points of the compass to this end. We try to run down the news, scout for it, but it is a hard matter sometimes to get it all and because of this we are asking you to help us out. Please do this and don't be afraid that items are too trivial for public mention. "Despite not trifles, though they small appear, Small sands, the mountains, moments make the year—"

And trifles make the newspaper."

A WORD OF PRAISE

Is there anything so easy to give as a word of praise where it is deserved? Often those who have gone to much extra trouble in doing something special receive no recognition at all. Perhaps they are paid with money. But it is safe to say that many workers would rather have a word of praise from their employers than extra money. Praise not only gives the employee confidence in himself, but acts as a stimulant in his work which he attacks with greater energy than before. A word of praise brings happiness to those who have tried to do their best. Praise is cheap but valued greatly. Be quick to praise.—Picton Gazette.

REACH AGREEMENT

A treaty between the government of Italy and the Vatican was signed Monday in the papal council hall of the Lateran palace, which it is announced ends the sixty year-old disagreement. While the full terms have not been announced, the public is given to understand that the papal state is to be revived, on smaller dimensions than of old, but recognizing the pope as a temporal sovereign, which is the principle for which the Roman Catholic church has stood during the long years of the controversy. The church is to receive an indemnity equivalent to \$105,000,000 from the state and to have practical control of education in Italy.

EFFECTIVE SIGNS

The Stratford Beacon-Herald quotes a Texan sign-writer as arguing that our danger signs are based on the wrong psychology. Tell a man, he says, to Stop, Look, Listen, and he is impelled to do none of the three, so he suggests the following at railway crossings: "Come ahead. You're important." "Try our engines. They satisfy." "Don stop. Nobody will miss you." "Take a chance. You can get hit by a train only once."

NOTES AND COMMENTS

(By Slick Ear)

A press report says that William Greenwood of Olympia, Wash., has built an ark eighty feet long twenty wide high. He is getting it ready for the devastating flood. He says it will sweep the Pacific Coast because of the wickedness there. The ark has no steering gear because Greenwood says "the good Lord will steer it."

An yet they lock people up in Ponoka.

Headline: "Italy's birthrate falls off in 1928." That's Italy's business. Do you know that recently Los Angeles had a "freak" storm? Trees were up-rooted and about an inch of hail fell in Hollywood and Glendale. Trees were up-rooted and signboards blown down in Santa Monica. 'snice place to winter in.

Owen D. Young, chairman of the board of the General Electric Company believes morals shape "big business" and dishonesty is scarce enough to be news. He unloaded this from the pulpit of the Park Ave. Baptist Church in New York the other evening.

The world is getting better. Aain't you glad you found out?

Former Kaiser Wilhelm has written a book to present to his wife as a gift on his 70th birthday.

He calls it "My Ancestors." He still believes in the divine right of kings. He still claims "might is right."

Among other wise cracks he writes "Notwithstanding diplomacy, only might creates respect for the interests of one nation by other nations." And again he says "Diplomacy is effective if a nation in arms is behind it ready to enforce its will."

Bill's ideas might have been all right, according to his hope, but he failed to put 'em across. Anyway 'snice he wrote a book for his wife on his 70th birthday. Shows he did not forget her altogether.

Motor cars are increasing by leaps and bounds. Pedestrians are surviving by the same process.

CITY DUDE—HAYSEED

Rapidly those old lines of hostility between city and country people are being obliterated. City and country intermingle and blend. Cars, telephones, radios have contributed to this end. Labor on the farm is becoming industrialized. City men are seeking homes in the country. Many farmers live in town. A new under-emphasizing her beneficence and transcendent beauty," Father Coughlan said, "was merely to make manifest that Nature is not suited either to be our god, or to be the mirror in which we see reflected the code of human conduct and morality. God is greater than Nature. Our morals of charity, and justice, and the rest of it have been devised, certainly not by Nature, who is so often unkind and unjust."

HAS GREAT INTELLECT

Sir Robert Borden holds a very high opinion of Arthur Meighen. Asked by a Toronto interviewer for his estimate of the former Conservative leader's capacities, Sir Robert said: "You may say that in my opinion Arthur Meighen is a remarkable intellect, really a wonderful working mind. I would say that, in point of keenness of insight and readiness of expression in grasp of situation, and in sheer power of debate, Arthur Meighen has had no superior in Canadian political history."

What is Poor Lumber?

It's Costly Building Material.

Why?

It takes too much carpenter cost, because of uneven size, uneven dryness, unsuitable wood, warp, sap and cross grain.

NEWS OF INTEREST

What is read into the building of the cruisers by the United States is more dangerous to the interests of peace than anything which the construction of the ships themselves will do.

"If venereal disease and its consequences could be eradicated, more than 70 per cent. of the hospital costs of the province would be saved," declared Mr. Justice Riddell before the Canadian National Hygienic Council at Toronto recently.

The happiest place for communists would be in Russia. Our governments should see to it that red propagandists in Canada are given tickets at reduced rates.

Fourteen new "Moth" planes were ordered by the Department of National Defence for distribution among flying clubs in Eastern Canada and for forest patrol work of High River, Alta., air station. The order involves \$60,000.

When one of the opponents fires his pistol into the ground and the other fires wide, and both cool their ardor with a cold drink at a neighboring cafe after the "affray," duelling as in France can be indulged in with impunity.

Southern Alberta potato growers have a new market opening up in the southern states, according to M. L. Freng, district agriculturist, who pointed out that while Montana was quite a source of supply in this direction, the south was beginning to look to Alberta for first class certified potatoes. An organization has been formed in Edmonton to foster this trade with the aid and approval of the Provincial Government.

A new high mark in the value of the poultry industry in Alberta has been set during 1928, according to the annual report of the Poultry Commissioner, J. H. Hare. Figures arrived at with the co-operation of the Dominion Bureau of Statistics show that the numbers of the various kinds of poultry on Alberta farms in 1928 were as follows: 1,398,214 turkeys; 200,922 geese; 99,258 ducks; 5,496,130 other fowl; a total of 6,213,706 as compared with 5,853,000 in 1927. A corresponding increase in the value of poultry is shown in the fact that this reached \$6,095,298 in 1928 as against \$4,921,000 in 1927.

In reviewing the work of the Alberta Silver Fox Breeders' Association at its annual meeting at Calgary, S. M. Harteroft, vice president, said that there had recently been a marked increase in membership, which now stands at 121. He stated that the fox industry was the most profitable of all livestock industries and that Alberta had, without doubt, the finest climate in the world for raising healthy animals and producing the finest possible fur. The increase in the industry in the province had been almost phenomenal. In 1924 there were only ten ranches and 31 breeders whereas now there are approximately 140 ranches and 275 breeders.

ARROWWOOD NEWS

One of largest land deals that has been negotiated in this district for some time was brought to a close through the land office of Lyle Bros. of Arrowwood, when Mr. L. H. Irwin farmer of this district, bought the 900 acre farm of Mrs. E. M. Bulger of Bassano, at the price of \$53,000. Based on the set price of \$57.50 per acre. The exact amount of cash paid down on the place was not made public but it is rumored that approximately one-fourth of the total purchase price together with certain other concessions making the down payment equal to one-third the total purchase price are the figures upon which the deal was carried through. The farm as a whole is considered to be a very valuable property, situated as it is within one mile from town and containing some of the best soil in the district free from waste-land except for one quarter cut by the Arrowwood Creek.

Mr. Irwin is at present spending the winter in California and has recently undergone a serious illness but he will return to this district to revise his plans for larger farming operations as soon as his health will allow. Previous to this he owned five quarter-sections of some of the best improved land in the district and his increased holdings will make him rank among the largest wheat land farmers in the district bringing his total real estate holdings up to eleven quarter sections of valuable land, none of which lies more than three and one half miles from Arrowwood. He is an old timer of the district and at one time was the holder of a homestead in the Queenstown district, which he sold about fourteen years ago and purchased where his home is now located, two miles from Arrowwood.

The farm which he purchased lies adjacent to his home property and is itself one of the oldest in the district bought and broken out by Luther Shatto soon after the first Indian reserve land sale, in 1911, and sold to the present vendor in 1921, at which time Mr. Shatto, one of the biggest land holders in the district released all his land holdings and moved to the state of Washington on account of the ill health of his wife.

There is also a possibility that Tunney, the ex-champion and his bride, the former, Miss Polly Lauder may attend the big frontier day celebration. They are at present in Europe. Miss Lauder with a party of other New York girls visited the T. S. Ranch in 1925.

WEADICK RETURNS

Guy Weadick of the T. S. Ranch in the foothills, west of High River, has returned from his second trip East since October 15th. Chicago, New York, Montreal and other eastern points were included in the last trip. He states that every indication points to the largest tourist travel to Western Canada this coming summer, in the history of the country. While East Mr. Weadick personally was in touch with several prominent people, who have arranged to attend the Stampede at Calgary this year, the dates of which are July 8-13. Several of these people will visit the T. S. Ranch after the Stampede is over. Among those who have made their reservations are Mr. Alfred Bedell and party. Mr. Bedell is president of the Bedell stores, that are in the principal cities of the U.S. Mr. M. Hartley Dodge, president of the Remington Arms Co., and party. Mr. Dodge visited the T. S. Ranch last summer. Miss Catherine Curtis and party from New York City. Miss Curtis is the only woman producer of motion pictures in the U. S. and the sole producer for the General Federation of Women's Clubs. She is the producer of "The Shepherd of the Hills" by Har old Bell Wright and "The Sky Pilot" by Ralph Connor. William Slavins McNutt, the well known writer, an old personal friend of Weadick, is also coming as well as Mr. George Matthew Adams, the head of one of the largest newspaper syndicates in the United States.

I recall only one clever thing Aimee Semple McPherson ever said, it was: "We are all sinners, though nowadays most of us have left off being miserable about it."—New York World.

The Prince of Wales has decided to abandon hunting and point-to-point racing and will sell all his hunters. His decision is due to increasing duties in consequence of the illness of his father.

In view of the fact that number of water connections in Blairmore had become absolutely unthawable by equipment in the town, the Council has wired the purchase of an electric thawing equipment to relieve distress.

Secretary Kellogg of the United States favors the deepening of the St. Lawrence river jointly by Canada and the U. S. The United States have been in favor of such a treaty for years and he said his endeavors would be to bring an understanding with Canada on the subject.

BOARD

The McQueen Boarding House has been taken over by Mrs. Kemp and is now open to the public. A trial solicited.

Vulcan Herald
Published in the interests
of the People of Vulcan
and the Farms and the
Farmers of the District.
J. T. WILLARD, Editor.

Starting poor twenty
years ago a man retired
recently with the com-
fortable fortune of \$50,000.
This was acquired through
industry, economy, con-
scientiousness, effort,
indomitable perseverance,
and the death of an uncle
who left \$49,990.

Anyone who can use a
real good Fordson at a
bargain price should see
us at once.

The Scotchman who
offered a prize for the
first one to swim across
the Atlantic has recently
announced that the dis-
tance must be swum
under water.

The car ahead of you
is another thing that nev-
er turns out as it should.

Some people think so
deeply that there ideas
never come to the surface,
others are so shallow
brained they have to wear
hats to keep the wind from
blowing their thoughts
away.

Usually we don't care
for people with mean dis-
positions but—You'll have
to admit it takes a crank
to start a car in this
weather.

Three generations—
1. Grandfather had a
farm.

2. Father had a garden.
3. Son had a can opener.

All men are free and
equal when born, but
some grow up and get
married.

This effort to keep
straight used to be a mor-
tal struggle instead of a
diet.

One-half of the world
doesn't know how the
other half "flies".

It is a noticeable fact
that most speed records
are made by people who
are not going anywhere.

Bargains in good second
hand machinery:
John Deere 3 furrow plow
24 run S. D. Van Brunt
Drill used one year—
10 foot Massey-Harris
spring tooth cultivator.

Parting advice: Put a
little water on the comb.

How to stop headache:
Put a tourniquet around
your neck.

If you run down an ac-
quaintance with your car
he may recover, but if
you run him down with
your tongue permanent
injuries will result.

ALBERTA OIL FIELD

Turner Valley Oil Production 38,501
Barrels in January.

Total deliveries of oil of all kinds
from Turner Valley Oil wells to the
Imperial Oil Refinery and Regal Oil
Refinery during January amounted to
38,501 barrels, according to the fig-
ures released by the refineries Thurs-
day.

Of this total amount 36,907 barrels
were delivered to the Imperial Refin-
ery and 1,594 barrels to the Regal Re-
finery, says the Calgary Herald.

January production shows a reduc-
tion of 9,004 barrels, compared with
the record month of December, when
47,505 barrels were delivered to re-
fineries but the major portion of the
decrease is accountable to the frozen
condition of Okalta No. 1 well which
produced more than 11,000 barrels in
December and a little more than 2,600
barrels in January.

Dalhousie No. 1 also showed a re-
duction of nearly 3,000 barrels last
month compared with December. In
January, Dalhousie No. 1 produced
2,555 barrels compared with 5,887
barrels in December.

Offsetting these two decreases, Roy-
alite No. 4 deliveries jumped nearly
2,000 barrels in January, production
being 17,310 barrels, compared with
15,564 barrels in December. Royal-
ite No. 15 and No. 17 added produc-
tion for the first time with 697 and
780 barrels, respectively. Foothills
No. 1 showed a small increase while
Royalty No. 7 produced almost the
same amount as during the previous
month. Royalty No. 1 produced 60
barrels in January against nothing in
December.

Home No. 1 showed an increase,
but it was largely offset by a similar
reduction in Home No. 2.

Deliveries Made

Deliveries to the Imperial Oil Re-
finery were stated to be as follows:

Crude Naptha		Barrels	
Well—	Jan.	Dec.	
Royalite 1	60		
Royalite 4	17,310	15,564	
Royalite 7	2,441	2,434	
Royalite 8	39	52	
Royalite 17	716		
Dalhousie 1	2,555	5,887	
Ills.-Alta	2,694	2,735	

Crude Naptha		
Royalite 9	305	847
Royalite 10	194	168
Royalite 11	264	199
Royalite 12	303	245
Royalite 15	697	
Royalite 17	20	
Dalhousie 5	1,729	1,615
Dalhousie 6	446	533
Foothills 1	2,300	2,123
Foothills 2	167	420
Home 1	828	374
Home 2	722	1,180
Okalta	2,617	11,296

Deliveries to the Regal Refinery
were as follows:

	Jan.	Dec.
McLeod	416	19
Spooner	823	1,453
Vulcan	161	167
McD. Segur	194	194

Total 1,594 1,833

Grand Total 38,501 47,505

Actual Production
Actual production at the Spooner
wells in January was reported by the
company as 1,352 barrels and McLeod
Oil Company officials reported a to-
tal production of 923 barrels, but in
both cases, total production was not
delivered to the refineries during last
month.

The Home No 1 well is producing
on an average of 480 barrels each
day. At this rate Home No. 1 well
would produce 17,250 barrels of nap-
tha and 480 barrels of crude for a
30-day month, which is practically
equivalent to the production from
Royalite No. 4 in January. It is ex-
pected that a second separator and
pressure tanks to lessen evaporation
will show further increases in produc-
tion, although Mr. McLeod would
make no official estimate of what this
increase might be. Calculated on the
basis of \$4.25 per barrel for naptha,
Home well No. 1 is producing naptha
valued at more than \$2,400 per day.

McLeod is to have its own air-
plane transportation and passenger ser-
vice, according to announcement. William
Hoodless, town councillor and garage
proprietor, is purchasing a plane to
fly between McLeod and Calgary and
other points of Southern Alberta.
McLeod will be the first town in Al-
berta other than the big cities to be
served by an airplane.

REGENT OILS

Frequent increases in the flow of
gas and heads shooting gas and oil
over the top of the derrick once or
twice a day are reported from the
Regent well by D. A. McDonald, pres-
ident of the Regent Oil Co. An addi-
tional five feet of hole has been made
making the total depth Saturday
about 3,848 feet. A control head has
been ordered. Until it is attached to
the well, drilling will be carried on
very slowly, Mr. McDonald states.
Fumes from the gas are making it
very difficult for the men to work
around the well. A separator has
been hooked up ready for production
if struck. About 75 barrels of oil
have been recovered in two days
while the well has blown by heads.

ITEMS OF INTEREST

The good old slogan, "Children
first," would avert many a wreck on
the sea of matrimony.—Sherbrooke
Record.

The city of Camrose endorsed the
sale of the waterworks and electric
light and power municipal utilities to
the Calgary Power Co. for \$170,000.
The Calgary Power will take posses-
sion immediately.

Additional truck licenses which may
be graded as high as \$100 in the
case of the heaviest freighters, will
be imposed by the Alberta Govt. on
trucks operating on the highways.
Over in the U.S. some States charge
as high as \$700 for a yearly tax on
big freighters.

An Indiana newspaper complains:
"Instead of making an honest effort to
reduce taxes, our legislature is seek-
ing every means possible to tap new
sources of revenue in order to spend
more money." The habit appears to
be prevalent. It is not confined to
this country, apparently.

Alberta dairying interests will be
represented during the coming year
on the board of the National Dairy
Council of Canada by the following
men who were chosen at the recent
convention of the council held in Van-
couver: E. T. Love, Edmonton; J. W.
Carlyle, Calgary; Norman E. Clark,
Didsbury; W. W. Prevey, Edmonton,
and J. R. Love, Edmonton.

Arrangements have been made to
hold an agricultural short course at
Manola on the Busby-Barrehead line
on March 12, 13 and 14 under the di-
rection of the Provincial Department
of Agriculture. A number of lectures
and demonstrations will be given on
cereal and forage crops, weed eradica-
tion, live stock and poultry, power
and farm machinery and soil man-
agement.

King George who travelled from
Buckingham Palace to Craigwell
House on February 8 after his long
illness was accorded sympathetic greet-
ings on the part of thousands of peo-
ple who had gathered to witness his
departure. He acknowledged the
cheers by a smile and a wave of the
hand. The king bore the journey
fairly well and was not unduly fati-
gued.

Mr. A. C. Wingate of Cayley un-
loaded three pure bred Percheron
mares at Cayley today purchased
from A. G. Coutts, a percheron breeder
at Kitseoty, Alta. These three ani-
mals have outstanding qualities and
will make an ideal foundation stock.
In view of the popular demand for
power farming Mr. Wingate shows
considerable courage in pinning his
faith in the production of good horses
at this juncture.

An old time resident of the province
and a valuable public servant in
the person of F. G. Forster died at
his home in Edmonton on Wednesday
after an illness of several weeks. Mr.
Forster was well known among the
newspaper fraternity of the province
having been at one time editor of the
Medicine Hat News. He later occu-
pied the position of Assistant Public-
ity Commissioner for the Alberta
Government and in recent years has
been Supervisor of Licenses for the
Liquor Control Board.

One of the largest manufacturing
plants in Alberta has changed hands
with the purchase of the Medalta
Potteries Limited of Medicine Hat by
R. C. Carile and O. C. Arnott of Cal-
gary. The assets of the company in-
clude valuable clay deposits in Al-
berta and Saskatchewan, the plant hav-
ing capacity of over one carload of
pottery per day. This plant, it is
stated, produces some 75 per cent. of
the pottery manufactured annually in
Canada.

The announcement that a large
group of British capital has been in-
terested in a project for utilizing the
surplus gas in the Turner Valley Oil
and Gas field in Southern Alberta is
conveyed in a telegram recently re-
ceived by Premier Brownlee from
Hon. Herbert Greenfield, representa-
tive of the Alberta Government in
London. It is pointed out by the
Premier that as a result of the activi-
ties of Mr. Greenfield's office, there
has been in recent years a marked
change in the attitude of British cap-
italists towards investments in West-
ern Canada.

A VIRTUAL EMBARGO

C. O. Smith who has been in Wash-
ington, D.C. for some time represent-
ing the Southern group of papers and
who has an intimate view of the U.S.
attitude to Canada says American
producers are striving for a virtual
embargo on Canadian imports. He
urges Canada to employ all her re-
sources of diplomacy against the
threatened blow. Speaking at Mon-
treal, Mr. Smith described the U. S.
as being now in the throes of a high
protection complex. They want
more protection for all their own
products and markets and they are
going to get it. The American pro-
ducers' hope was for a virtual em-
bargo on Canadian imports that now
have a total value exceeding \$150,000
600 a year. Mr. Smith adds that
Canada in case the embargo is placed
should see to a reduction in the vol-
ume of Canadian purchases of Ameri-
can products in Canada more nearly
to a parity with American purchases
from Canada. As one answer to the
declared American intention Canada
can employ the resources of empire
preferential tariffs and seek enlarge-
ment of Canadian trade in more re-
ceptive fields.

FARM TO CASTLE

While the remarkable inheritance
that has fallen to Fred Percival, of
Priddis, Alberta, Earl of Egmont, is
fresh in the mind, a little information
regarding this fortunate nobleman
contributed by one of his Priddis
neighbors, is not without interest.

The family name of the Earl of
Egmont is Percival. He is of ancient
lineage, the family having been prom-
inent since Queen Elizabeth's time.
One of the Percivals was high in na-
val office at the time of the Spanish
Armada. He captured a Spanish
ship loaded with treasure. Naturally
he was obliged to share up with his
thrifty Queen, but in recognition she
created him an Earl, thus establish-
ing the title.

Soon after this, one of family was
sent to Ireland as Land Titles Con-
troller. He acquired a fine estate in
Cork and rich holdings. There is a
statue in Brussels erected to one of
the original Egmonts—a military of-
ficer.

Through the years the family en-
countered the usual vicissitudes,
emerging in 1811 with a Spencer Per-
cival who was Prime Minister of Eng-
land. In 1811, Percival received a
letter from a member of the family,
telling him, that through the medium
of a vivid dream, warning had come
that he was to be assassinated. The
warning came true. He met his death
shortly after.

But the interesting element of this
story is that the present Earl, now at
Priddis, has that warning letter in his
possession—yellow and faded, with
the years, but the same letter.

This Prime Minister had twelve
children—six sons and six daughters.
One of the sons was the grandfather
of the present Earl, Fred Percival.

The Earl of Egmont, who recently
died, was born in New Zealand. As
a young fellow, he shipped before the
mast. One day he found himself in
Capetown, South Africa, broke and
discouraged. Here he joined the
Capetown Mounted Rifles and later
joined the Zulu police. He was serv-
ing in Zululand when he received no-
tice that he had fallen heir to an earl-
dom.

The adventurous strain is strong in
this family scattered as it is to the
four winds.

When Fred Percival of Priddis, was
a boy of eight, his father and mother
migrated to the States. They settled
first in Iowa, then in Missouri, finally
pulling up stakes and coming to Prid-
dis, Alberta, twenty-eight years ago.
Here they have lived ever since. Fred
Percival who was about 27 years of
age on coming to Alberta, was mar-
ried sixteen years ago to a Miss
Moore, of the Priddis district. He
has one son of fourteen years. His
wife, father and mother, have all died
during the last few years, leaving
father and son to "batch it," which
they have been doing.

The farm at Priddis consists of 500
acres and the owner is very comfort-
ably off without his earldom. Never-
theless he has been anticipating the
present stroke of fortune for some
ten years. The Priddis place has
been advertised for sale in the Cal-
gary Herald for \$22,000 cash.

His neighbors are much of the opin-
ion that he has no intention of retain-
ing any Alberta ties. He leaves for his
ancestral home the end of the month.
The son is a handsome youth, but nei-
ther father nor son have any special
educational advantages, and years of
batching in the pioneer West, are
strange preparation for the atmos-
phere of baronial halls.

There is an old prophecy in the
family that the title will never de-
scend from father to son.

SECURE SEED OATS

Farmers throughout the province
are again being advised by the Pro-
vincial Department of Agriculture to
make the necessary provisions for
the supply of seed oats which will be
required for their 1929 crop. The
germinating quality of oats in a
number of districts has been found to
be somewhat seriously affected by
frost and in some cases this grain
has been rendered quite unfit for
seeding purposes. It is pointed out,
however, that quantities of good seed
oats are available, particularly in
the Peace River country, and arrange-
ments are being made by many of
the elevator companies to meet the
requirements of farmers whose oats
are unsuitable. Information as to
the sources of a supply of good seed
may be secured from the office of
Field Crops Commissioner W. J.
Stephen.

The Alberta provincial treasurer is
opposed to ear marking revenue from
motor licenses and gasoline taxes for
highway construction. There is no
question about it, every cent derived
in that way should be utilized for road
work.

Dr. H. M. Tory who occupied the
position of president of the Universi-
ty of Alberta from its organization
until last year has recently been ap-
pointed president of the League of
Nations Society of Canada, succeed-
ing Sir George Foster.

A report tabled in the House of
Commons at the beginning of the ses-
sion revealed the remarkable improve-
ment in C.N.R. finances since Sir
Henry Thornton took charge of the
system. From deficits ranging up to
over \$8,000,000 in a single year, the
system, after nine years, has a total
operating surplus of more than \$102-
000,000 to its credit.

AUCTION SALE

As I am leaving the district, I have authorized the Sale of the follow-
ing, at the premises N. W. Quarter Section 7, Twp. 18, Rge., 23, W4,
being 8 Miles North and 4 Miles East of Vulcan, 12 Miles West and 4

ITEMS OF INTEREST

Nanton school has been awarded the Strathcona Trust Physical shield. The shield carries with it a scholarship in the Advanced Physical Training course at the summer school to be held at the University of Alberta in July and August, and this scholarship has been awarded to E. P. Foster.

Alberta's oil production will be materially increased as the result of a strike made during the past week at Home No. 1 well in the Turner Valley field. The heavy flow of wet gas from the well is being connected with separators and the results of the first few days' test indicate that the production of naphtha from the Home well will approximate that from the famous Royalty No. 4.

V. E. Forster of Camrose was returned as president of the Alberta Fairs Association for the fourth year while Harold Huxley of Lloydminster enters on his eighth term as secretary following the unanimous decision of the 1929 convention held this week in Calgary. John Wilson of Innisfail was chosen to succeed Hugh MacIntosh of Macleod as vice-president and the following directors were elected: E. W. Bjorkeland, Red Deer; J. F. Anderson, Lethbridge; Mrs. M. Mellis, Rimbey; W. E. Sutton, Vermilion; Chas. Ball, Sedgewick; E. L. Richardson, Calgary and G. R. Stewart, Lamont. It was decided that the 1930 annual convention of the association will be held in Edmonton.

Expansion of the plant, equipment and activities of the Alberta Government Telephones will involve an expenditure of approximately \$1,000,000 before 1933, it is announced by Hon. V. W. Smith, Minister of Railways and Telephones. Included in the proposed improvements is a new exchange building in Calgary and the construction of new buildings at Hanna, Halkirk, Grand Prairie, St. Paul de Metis and possibly one other point in the province. A new building is also planned at Drumheller with a complete automatic exchange and it is expected that automatic equipment will also be installed in the Red Deer building.

Of the 695 miles of branch lines construction which is proposed by the Canadian National Railways during the next three years 156 miles are in Alberta. The longest project in the province is 82 miles of new construction to run south-easterly from Alliance to near Dobson on the Calgary-Saskatoon line of the C.N.R. In addition to serving a large area of good agricultural land this branch will considerably shorten the haul for grain and other shipments to Edmonton. From this new line a branch 25 miles in length will be built in a north-easterly direction from Bulwark. The building program in Alberta also includes the extension of the Lovers line from its present terminus at Hemaruka to Scapa on the Hanna-Warden line, a distance of 41 miles following the route originally projected by the Grand Trunk Pacific.

MUNICIPALITY OF MARQUIS

Continued from front page
ed in each small town and village in and adjacent to the Municipality of Marquis. The amendment carried. Miss Davidson, R.N., the municipal nurse, then gave a full and interesting report of her work during the year, outlining a scheme of prizes in conjunction with school fairs for the schools: (1) With best equipment; (2) Best best including outbuildings; (3) Best display of health posters and health education; (4) Facilities for serving hot lunches and daily supervision of the lunch hours; (5) Improvement of pupils since last inspection. Miss Davidson was accorded a hearty vote of thanks on the conclusion of her report.

Mr. Higgins on behalf of the Milo Board of Trade asked a question as to the moving of the municipal office. Mr. Campbell in reply stated that the Council had decided that this matter should go before the ratepayers and a vote be taken.

Moved by Marten Peterson that a vote be taken of the ratepayers as to the location of the municipal office.

Moved by John Glambec, seconded by D. B. Sims that a vote be taken on (1) The improvement of the Municipal Park; (2) The moving of the Municipal Office to Milo or Queenstown or the leaving of it in its present position. Carried.

Moved by Wm. Jackson, seconded by John Glambec that this vote be by Preferential Ballot. Carried.
Moved that this meeting adjourn.

**NOTICE
To Dog Owners**

Owners of dogs in the Town of Vulcan are required to take out a license for same on January first of each year.

Ample time has now been given for securing these, and Notice is Hereby Given that persons keeping dogs without a license, after this date, will be prosecuted.

A. W. KEY,
Town Constable.
February 21, 1929.

KIRKCALDY NOTES

The W. I. met at the home of Mrs. Charles Tuttle on Thursday, February 14th. The hostess served dinner at 1 p.m., after which the members tied a quilt. Mrs. Tuttle, who is leaving the district in the near future, was presented by the members with a silver sugar shell.

Mrs. Shipley, of Calgary, has been visiting with Mrs. Baldwin for the past week.
Messrs. Dwight Tuttle and Doyle Dunbar spent a few days in Calgary last week.

The Kirkcaldy Girls Club held a social on Friday, Feb. 15th when songs and recitations comprised an enjoyable programme; also the hope chest was raffled off, Doyle Dunbar holding the lucky number. The girls served a delicious lunch, and although it was a very stormy evening, a good crowd had an enjoyable time.

Mr. R. Robbie is spending a few days on the farm.

Mr. and Mrs. John Fox are spending a few days in Macleod.

GOOD DEEDS W. I.

The Good Deeds W. I. met in the United Church Sunday school room on St. Valentine's Day. After the opening exercises Mrs. McMaster's resignation as treasurer was read and accepted. Mrs. Lucas was elected in her place.

Mrs. Robert Irwin was elected to go to Medicine Hat to the district 4 conference, March 6.

Much amusement was had by the drawing and reading of a verse on the Valentine from the Valentine box.

Mrs. Hungerbuhler and Mrs. Pratt both thanked the Good Deeds for fruit and flowers sent during their recent illness.

Mrs. Alcock, Director for District No. 4 was present. In her address, she told of her experience in getting to the place of meeting when she went to organize the Good Deeds, March 8th, 1923. It was her first institute to organize after she was elected convener for the Little Bow constituency. She complimented us on our splendid meetings, our observing Good Deeds Day, March 8 at our six school districts and treat given to the children out of W. I. fund. Also for the splendid idea of giving prizes in these districts at the end of the school year to the three having the best window boxes. She spoke of the good health clinics were doing in the out-lying districts. She would like to see one woman at least, on every school board in the province. So insist on the speaking and teaching of English in all our schools. She asked us to use our influence to have the Bible taught in some form in the public schools.

Mrs. Martin convener for the Little Bow constituency was also present and spoke on making better Canadians out of our boys and girls. Study the lives of our own public men and women and more pictures of these should be available.

Short greetings were given by Mrs. Parson, Thigh Hill W. I.; Mrs. McJann, Vulcan; Mrs. Doane and Mrs. Moss, Redlandview. There were thirty women present and money received \$2.65; bills \$8.15.

Next meeting, March 14 with Mrs. Charlie Smith. The Good Deeds W. I. wish to thank all who so kindly helped with the lunch.

The Pool elevator at Foremost is now the leading elevator among the 318 operated in Alberta. The handlings of this elevator totalled 325,000 bushels at the beginning of the month thus forging ahead of Provost which previously was the leading Pool house. Foremost is in the southern part of Alberta. This elevator was built in the spring of 1928 and Stanley Blackman is the local operator.

UNITED CHURCH NEWS

Continued from front page
ing up of a home?

The old pictures still hang upon the walls. The table at which we sat at meal time happy and expectant, with our old father at the head and the sweet faced mother at foot, is now now set out with all the household has of china and of glass. But the hammer of the auctioneer sounds a knell in every heart. Every blow is agony to us, and then we walk through the deserted rooms for the last time. What happy hours we spent in this one; it was the living room. What delightful times we had in this one; it was our play room. We came out and shut the door. The voice of the crating and packing echoes through the empty house. It's like a beautiful story with a sad ending.

Yet what home used to be, what the old church used to be, God is to those who know Him best.

"The Eternal God is thy refuge and protection and underneath are his Everlasting Arms."

This view of the Divine Love and Keeping is full of inspiration, for us. We are not saving ourselves. We are not tossed like a leaf on life's troubled sea. We are in God's keeping and our safety and security does not depend on our own weak feeble fault, but on the faithfulness of the unchanging and eternal God.

Underneath are His Everlasting Arms.

There was a large attendance at the evening service. Speaking on "the busy man" Mr. Brunton stated that a great many people today are so busy that they are missing life. They are filling life with little activities and missing the thing that counts. In fact we are so full of work that we are starving life and making it ineffective.

The ugly problems of war, famine and pestilence are the calls of a world to a life that is more restful, more time for thinking about the things that are worth while.

The speaker felt quite sure that most people have not appreciated that lovely little bit of philosophy that our Lord has wrapped up in the story of Mary and Martha.

Jesus is being entertained in that home, Mary is engaged in conversation and loving fellowship with the Master and Martha is busy and busy preparing a good dinner. At last, Martha complains, Master dost thou not care that my sister hath left me to serve alone, bid her come and help me. Jesus says, "Martha, Martha, thou art fussy and troubled over many things. One thing is needful and Mary hath chosen that good part which shall not be taken away from her."

There will be a special address for the young people Sunday evening. Everybody welcome.

John R. Craig, who years ago, was manager of the Oxley ranch, died at the age of 92 years.

Have you lost anything—a purse, some jewelry, your keys? Perhaps someone has already found it, and is looking for your ad. in the "Lost & Found" Column of The Times. Don't delay in inserting a small "Lost" ad in the classified columns.

A comprehensive program has been drawn up for the short course for weed inspectors which will be held under the direction of the Alberta Department of Agriculture at the University of Alberta, February 25 to 29. It is anticipated that a large number of candidates for positions as weed inspectors will attend this course during which lectures and demonstrations will be given by a number of authorities on the various branches of agricultural work.

A loyal Scot, writes to the Strathmore Standard explaining certain peculiar phases of Scottish nature. He says that it is Scots who for centuries have written all these jokes on themselves and sold them to English readers. Never once have they given themselves away. The Scot does not in reality prefer the bagpipes to other music. But you can't make a grand piano out of the internal workings of a sheep. The Scot is quite aware that the kilts are feminine garments, but he wears them in his own country to tone down his natural ferocity. It was a Scot who invented the steam engine because he hated to waste the steam that came out of the spout. When he refuses to loan you a sixpence, it is not from meanness but because he knows that money is the root of all evil, and he would not willingly harm any man.

Between the years 1926 and 1928 Manitoba, Saskatchewan and Alberta have increased their field crop acreage by nearly a million acres annually, having brought under production within that period 7,700,000 acres of new land, according to the Bureau of Statistics at Ottawa.

M. MacGowan, mayor of Okotoks, has opened up a real estate office in Calgary, in partnership with Mr. P. Palliser.

The value of Saskatchewan's dairy products in 1928 is put at \$20,163,300 as compared with \$19,609,501 in 1927. The total gives Saskatchewan a lead over Alberta of \$263,300.
